Class Webinar on Labour Law for 8th Semester

Globalization Has Led To A Free Market Centric Economic System Where The Global Multi -National Corporations (MNC)S Are Functioning Solely With The Objective Of Profit Maximization , And Consequently A Dilution Of National Labour Laws In The Countries Of Their Operation. The Free Market Economy In The 21st Century Has Led To A Prioritisation Of Knowledge Based Service Centric Industrialisation, Leading To A Significant Rise In Migration From Rural To Urban Areas Across All Major Developing Areas. India Is No Exception To This Trend And Since The Economic Reforms Of 1991, The Nation Has Witnessed Increasing In Rural To Urban Migration, In Each Passing Decade, Thereby Signifying The Rise Of An Aspirational Youth Population. Migration Has Shaped The Course Of Human History Since Times Immemorial And In The Current Socio-Economic Context, The Role Of The Global Mncs In Circumvention Of Labour Laws Related To Minimum Wages, Working Hours And Social Security Of Workers Requires Serious Academic Analyses. During The COVID Lockdown Imposed By The Government In India, The Plight Of A Huge Number Of Migrant Labourers Who Undertook Arduous Journeys On Foot Across The Country's Highways To Reach Their Native States, With The Visible Lack Of Any Governmental Support Highlighted The Adverse Work Conditions And Gross Abuse Of Human Rights Of A Vast Number Of India's Migrant Labourers Working In The Unorganized Sector.
