Skill Development Programme (Computer Training for Non-teaching staff)

In today's fast-paced digital world, computer skills have become essential for almost every career. With the advent of new technologies and increasing reliance on digital platforms, employers seek candidates with strong computer skills. Computer training and literacy can enable a person to enhance one's productivity, streamline work processes and boosting one's career prospects. Proficiency in computer training is indispensable in the current age for career growth and development. The internet is a vast and valuable repository for a information and resources which can be accessed and utilised effectively with knowledge of computer skills.

Surendranath Law College organized a Skill Development Programme (Computer Training for Non-teaching staff) with collaboration of Surendranath College between **26th August to 31st August 2022 from 11am-1pm**. Around 10 non-teaching staff members attended the above said programme. The College arranged resource persons from computer science department of Surendranath College as computer trainers. They emphasized on the importance of computer knowledge in day-to-day administrative work. The Vice Principal of the College, Dr. Mohammadi Tarannum was overall incharge of the programme.
