

## **Road Rally against Child Labour- 2022**

Child labour is defined as any work that is exploitative and deprives children of their childhood potential and dignity, relating to their physical and mental development. Child labour can have highly detrimental effects on a child's health, intellect and future development prospects. In India, the Constitution explicitly prohibits children under the age of 14 from working in mines, factories, or hazardous occupations. Similarly, the International Labour Organisation (ILO) defines a child as anyone below the age of 18 who should not be involved in hazardous work. Every year on **12th June**, the **International Labour Organization (ILO)** combines forces with their constituents and partners all around the world to observe the **World Day Against Child Labour**. On this day, the world unites to raise awareness about the plight of child labourers and advocate for child rights, focussing attention on action-oriented steps needed to eliminate this evil practice of child labour.
