Co-ordinator: Miss Aankita Ganguly, Faculty, Surendranath Law College

About the College & the Event:

Surendranath Law College, an esteemed Law college, affiliated to the University of Calcutta, has been imparting legal education since 1885. Recently the Students' Welfare Committee of the college organised a free Eye and Health Checkup camp, in collaboration with the Rotary Club of East Kolkata.

The entire event was curated & counseled by Prof. Dr. Mohammadi Tarannum, Vice-Principal of the Surendranath Law College; Ms. Dipali Podddar, Honourable President of Rotary Club of East Kolkata; Ms. Debjani Banerjee, Venerated Rotarian of Rotary Club of East Kolkata. The camp became a success with the hard work of the convener, the coordinator, along with whole hearted participation of the faculty members, the Rotarians & the student volunteers.

Objectives of the Camp:

- ❖ To promote health awareness among the students, faculty members and the non-teaching staffs of the college.
- ❖ To get proper medical advice from expert doctors.

- ❖ To encourage everyone to practice a healthy lifestyle.

Benefits of the Camp:

- If we do a routine check-up we get to know how likely we are to get diabetes/ cholesterol in the future. Hence, we can have control over your health.
- A regular health check-up can save money in the long run. Also, preventive health check-ups can reduce the risk of undergoing surgeries and other chronic medical conditions.
- Cancer is a disease where if we identify it later, it can be hard to diagnose. Doing a regular body check-up can help doctors diagnose a disease before it poses high risk.
- Once we are diagnosed with a health condition at an early stage, the complexity and risk involved are less when compared to diagnosing at a very late stage. A regular check-up can help in recovering our body from any health concerns.
- By doing a regular check-up of our body and health, we can be assured of how healthy we are. By taking the preventive advice from the doctor and following the doctor's prescriptions can increase our lifespan as well.
- There are various benefits to a comprehensive eye exam other than having our vision corrected and ensuring healthy eyesight, regular eye exams can also help to detect certain eye conditions such as cataracts, glaucoma and age-related macular degeneration, which could lead to vision loss.

Outcome:

A thorough screening of free eye and health check-up was held by the college and the Rotary Club of East Kolkata, aided by an efficient medical team from, which benefitted the students, the faculty members and the non teaching staffs, in getting a thorough check up of the body vitals. They got an opportunity to know about the status of their eye and other health conditions. The advice given by the expert doctors proved to be immensely helpful for everyone. The Eye and Health Camp proved to be a grand success. Surendranath Law College aims at making such endeavours in the near future as well.
