ABOUT THE COLLEGE:

Surendranath Law College is an esteemed law institute affiliated to the University of Calcutta and recognized by the Bar Council of India, also regarded as one of the oldest law colleges of the country. 'Rastraguru' Surendranath Banerjea, the great patriot and educationist founded this college in the heart of the city close to the Sealdah Station - considering the convenience of commuting and to encourage more students to partake of quality education, especially for those who belonged to the downtrodden community. In 1882, the Presidency School, which formed the nucleus of the present Institution, was handed over to Sir Surendranath Banerjea on 1st January 1884. He raised it to the status of a college affiliated to the F.A. standard and named it "The Presidency Institution". Within a year the institution was converted into a full-fledged, first grade college under the name "Ripon College". Its activity was further extended through the opening of the Post-Graduate Department of Law in 1884, which was later affiliated to the Calcutta University in the year 1885, as an independent professional college. Presently, Surendranath Law College imparts 5 years B.A.LL.B. course, 5 years B.A. LL.B. (Honours) course and two years LL.M. course.

The screenshot shows a PowerPoint slide with the following content:

Three aspects of Writing

- A good writer takes care of all three aspects...
 - Content:** relevance of ideas, significance of arguments etc.
 - Organization:** arrangement of ideas, coherence and cohesion etc.
 - Language:** spelling, grammar, vocabulary, punctuation etc.

Common Mistakes

- 1) **Do not shorten words or phrases-** use 'have not', not 'haven't', 'should not', not 'shouldn't'
- 2) **Link 'should' with 'would' and 'would' with 'could'-** I should be grateful, if you would....
- 3) **Avoid long sentences-** they are difficult to follow and they are often confusing
- 4) **Avoid slang,** and not in general use **abbreviations**

Meeting chat

only in the way of success but also in every aspect of life

Hristina Shaw

Success never has a shortcut... because it needs so much hardwork and consistency...and hardwork is simply contrasting to the word shortcut

Aria Lynn Roy

Is there any shortcut to SUCCESS?

The only shortcut is to do your work rather than being null.

Susmit Shaw

I think, There is no shortcut for success. The road of success is often result of learning from failure. So they aren't opposite of each other but a rather part of a same journey.

BOX 10.1: SOME ASSUMPTIONS ABOUT THE NATURE OF READING

1. We need to perceive and decode letters in order to read words.
2. We need to understand all the words in order to understand the meaning of a text.
3. The more symbols (letters or words) there are in a text, the longer it will take to read it.
4. We gather meaning from what we read.
5. Our understanding of a text comes from understanding the words of which it is composed.

Skipping Unknown Words

- If a word doesn't seem crucial to understanding the main idea, it's better to skip it rather than disrupt reading flow.
- **Example:** While reading, "The protagonist ambled through the forest, enjoying the serene surroundings," skipping ambled doesn't hinder understanding that the protagonist is walking in the forest.

Meeting Content (Google Slides):

- A farmer noticed that his crops were not growing as well as they had in previous years. The soil seemed dry, even though it had rained recently. Some plants had yellow leaves, which often looked stunted. Puzzled, the farmer decided to test the soil and discovered that it lacked essential nutrients. To address the issue, the farmer organic compost to the soil and noticed his crops the following season. Over time, the plants grew healthier, and the yield improved.
- The farmer shared his experience with neighbors, many of whom had faced similar problems. They realized that overusing the same land for the same crops had depleted the soil. By taking steps such as crop rotation and using organic fertilizers, the farmers saw better results in their fields. They also began practicing more diverse crops to ensure long-term productivity.
