## OUTCOME OF THE PROGRAMME –

In the recent times, due to the high rate of westernization of the country, people have been inclined towards the drug use. Drugs are used not just by the adults but also the teenagers. Teenagers have been reportedly using drugs to show their indulgences in westernized culture. This is gradually making them addicted to the substances and makes them incompetent to build up a future for themselves. This rally didn’t just make the youth aware but also the adults. Adults fail to realize that their children learn from them and not from what they teach. Hence, it is necessary for them to follow up the right path, and live a drug free life. Health is wealth, we all know that. But just knowing it won’t help us to keep our lives healthy and stable. We have to practice healthy habits to live a happy and healthy life.
