Subject: **Program report: Celebration of WORLD ENVIRONMENT DAY**

Organized by: **ECO CLUB** of Surendranath Law College, Kolkata
Date: 9th June 2022
Time: 12:00 PM onwards
Venue: Zoom online platform
Convenor: Prof. Debjani Ojha

About College & Program:

Surendranath Law College is an esteemed Law college, affiliated with Calcutta University in 1885, imparting UG education since 1885. Being one of the oldest Law colleges in the country, this college organizes various programs throughout the year. The ECO CLUB of Surendranath Law College organized a webinar for the celebration of "**5th June - The World Environment Day**" on 9th June 2022 on the topic "**Interface between Energy and Environmental Law: An Analysis**" via the Zoom platform which was counselled by **Prof. Dr. Mohammadi Tarannum**, Vice-Principal of the Surendranath Law College.

World Environment Day (WED) is one of the more unique and special holidays because of its history and its many firsts. It was created on the first day of the first-ever U.N. conference which focused on humans and how they interact with the environment.

However, this didn't happen overnight. Sweden first suggested having such a conference to the U.N. way back in 1968. And in 1969, the U.N. agreed that after 3 years they would have a conference in Sweden that focused on environmental issues. Interestingly enough, the conference was led by Maurice Strong, a Canadian diplomat who worked in the oil and mineral industry, and who also had a soft spot for the environment.

World Environment Day urges all of us to protect our natural surroundings. The stunning facts? An estimated 7 million people die each year from causes related to air pollution, with a majority occurring in the Asia-Pacific region. This day, which falls on June 5, encourages worldwide activism. That means everything from littering to climate change. World Environment Day is both a global celebration and a platform for public outreach.

Objectives of this Webinar:

1. To understand the importance of World Environment Day.
2. To understand the Laws which protect the Environment for looking towards better sustainability.
3. To understand the relationship between Energy & Environmental Law.

Benefits of the students from this Webinar:

1. Students were able to understand the importance of our nature and environment.
2. Students got to know the necessity of protecting the environment.
3. Students got to know various laws, constitutional and national legal frameworks, and policies that protect the Environment & how.

Program Details:

The webinar was scheduled for 9th June 2022 via the Zoom platform. Almost 100 Teachers and students were present at this webinar. The program started at 12:00 PM with a welcome address by Dr. Caesar Roy, Assistant Professor of Law, Surendranath Law College, and also welcome our Hon'ble guest speaker **Mrs. Amita**, Assistant Professor, Vivekananda Institute of Professional Studies, Delhi.

Later our speaker presents her excellent outlook on the topic "Interface between Energy and Environmental Law: An Analysis" where she explained the present constitutional, National & legal framework for Environmental protection & relation of the energy sector of India to environmental protection. She also showed us how India being a developing country and on a verge of industrialization booming, is facing an enormous challenge regarding Environmental Protection, and has also to think about how to synchronize its environmental policies and regulations to protect the environment and for better sustainability.

After that, the webinar ends with a vote of thanks given by Amit Ghosh, Surendranath Law College.
