Forests are critical for maintenance of ecological balance, acting as carbon sinks and combating the threats of climate change. Forests play a crucial role in supporting a diversity of complex ecosystems providing the habit for a variety of flora and fauna, besides maintaining the stability of the ecosystem, regulation of water table, prevention of soil erosion and carbon sequestration. More than 80% of the world's living organisms directly or indirectly depend on the forest. But every year a major portion of the forest is lost to the shake of developments of humans as well as the increasing human population and followed by their activities. This has an adverse effect on Nature like increasing CO2 emission, global warming, reduction of the Ozone layer, etc. which is a further cause of extinction of many races from the Earth.

To raise awareness amongst the students regarding the importance of forests, The Eco Club of Surendranath Law College, Kolkata organized multiple events for the celebration of "**International Day of Forests**" on 21st March 2023 which were coordinated and supervised by **Prof. Dr. Mohammadi Tarannum**, Vice-Principal of the College at the premises. The college adopted the 'Go Green' initiative for the whole day of this celebration.

On 28th November 2012 the UN General Assembly designated 21st March as **International Day of Forests or The World Forest Day**. Since then, every year this day is celebrated to raise awareness about the importance of Forest. Every year a theme is selected by the Food and Agricultural Organization of the United Nation. This year the theme was "**Forests & sustainable production and consumption.**"

The event played an instrument role in raising consciousness amongst students regarding the importance of forests and environmental protection. Students were able to appreciate the importance of forests in the ecosystem and the necessity of preserving them for succeeding generations. The role of the forests in ensuring environmental sustainability, water table management, combating greenhouse gases emissions and global warming were highlighted in the programme. Students also got to know various laws, constitutional and national legal frameworks, and policies that protect the forests. The students of the college also performed a street play at the college entrance as a means of awareness campaign regarding forestry protection which enthralled the audience.

ECO CLUB of
SURENDRANATH LAW COLLEGE

Celebrates:

21 March International Day of Forests
2023
By organizing
Street Play
"FOREST AND HEALTH"
and
Dance-Drama
"HEALTHY FOREST FOR HEALTHY PEOPLE"

Programme Organizer
DEBIANI OJHA
Asst. Professor,
Convenor of ECO CLUB
Surendranath Law College

Programme Chairperson
Dr. MOHAMMADI TARANNUM
Vice Principal
Surendranath Law College

09:00 am Onwards
