AWARENESS CAMP ON DRUG ABUSE- 2022

Drug (substance) abuse has become a worldwide menace threatening the very basis of human civilization. No part of the world is free from the curse of drug addiction. Drug abuse has emerged as arduous challenge to governments worldwide, adversely affecting the physical and socio-economic well-being of the youth population who are the most precious human resources of any country. It has enormous negative impact on public health across various sections of society. The epidemic of drug abuse in younger generation has assumed alarming dimensions in India also. The stress and strain of the modern-day life has rendered the individual more vulnerable to the problem of substance abuse. Addiction to alcohol/drugs not only affects the individual involved, but also the family and society at large.

Recognizing the seriousness of the multi-faceted implications of the prevalence of drug abuse in society, and the need to evolve effective awareness and counselling strategies to make the students aware of the dangers posed by drugs, Surendranath Law College organized an awareness camp on drug abuse with the slogan '**SAY NO TO DRUGS**' on 23rd of August, 2022 in the nearby areas of the college campus. A rally was conducted from the college to the Purobi cinema hall crossing, under the supervision of the Vice Principal of the College, Prof. Dr. Mohammadi Tarannum, and Ms. Mafuza Yasmin, Convenor of Extension Activity Committee. This awareness rally witnessed an active participation from faculty members and students of the College. This event raised awareness regarding the dangers of drug abuse, as well as avenues for counselling, treatment and rehabilitation of drug addicts back into the social mainstream.
